

“ In 2025, passengers' traffic in Italian airports reached nearly 230 million, +5% compared to 2024. Moreover, in 2026, for the ninth consecutive year, Fiumicino's Leonardo da Vinci airport confirms its position at the top of major European hubs for service quality. The challenge is to manage traffic flows and reduce seasonality, using technology to meet travelers' needs. ”

GIANMARCO MAZZI

Minister of Tourism

Confindustria's General States of Transport and Logistics
