

“

The development of Fiumicino airport is an opportunity for both the local area and the country as a whole, from infrastructural, tourism, environmental and socio-economic standpoints.

Citizens are calling for it loudly. According to the survey conducted by YouTrend, ADR has already planned to invest as much as €9 billion, including the construction of the fourth runway and various compensatory works.

We must therefore take the leap and proceed as soon as possible with the approval of the development plan by ENAC and the Government, listening to the needs of the local area.
